

Steve Ike

Senior Vice President – Remote Advisory Services

Professional Experience

Steve Ike as part of Cresa's Technology Advisory Services and Remote Advisory Services helps clients apply the appropriate technology, process, and strategy to address their overarching business objectives. With over 25 years' experience as a product manager, marketing specialist, managing consultant, regional sales manager, remote work advisor, and client engagement manager, he focuses on fully understanding the business need and desired outcome as critical to any project's success. His experience in collaboration, mobility, customer experience, workforce management and optimization, performance management and application integration provide the building blocks for driving productivity and efficiency within organizations. Having worked with startup companies, M&A as well as Fortune 100 clients facing the need to virtualize their teams, Steve understands the requirement to be agile and detailed with a comprehensive approach to "Work from Anywhere."
