

## Rachel Stilling

**Advisor, Lab Planning & Operations  
Boston**

### Professional Experience

As Advisor, Lab Planning and Operations, Rachel brings years of experience managing labs and life sciences facilities to provide insights and guidance to clients looking to optimize their workspaces and processes. Working closely with Cresa's transaction and strategy teams, Rachel offers critical end-user perspective to carry out effective programming, utilization, and assessment exercises. Before joining Cresa, Rachel managed lab operations at a number of leading life sciences organizations in Boston.

### Education

Rachel received Bachelor of Science in Molecular & Cell Biology and English from the University of Connecticut in 2015.

### Affiliations

Rachel is a member of both Women in Bio and the Association for Women in Science.

### Personal Interests

Outside of work, Rachel enjoys hiking in the White Mountains, traveling, and spending time with her family and friends.
