

Rick Ybarra

Managing Principal Cresa Consulting Group

Professional Experience

Rick Ybarra brings more than 15 years of extensive program/project management knowledge and leadership providing asset management services within the global/corporate real estate, design and construction industries for both commercial and federal/state clients. Rick works with clients to align their business, strategy, operations, talent, and information technology with their real estate needs. He also helps clients ensure the people, processes and technology provide the platform to manage their portfolios.
