

Lesley Kamnitzer

Research Manager
Data Center Capital Markets & Advisory,
New York & New Jersey

Professional Experience

Lesley is the Research Manager for the Data Center Capital Markets & Advisory team and assists with market research for the New York and New Jersey office-s. She is passionate about transforming data into actionable insights that drive business growth. With deep expertise in market analysis, data management, and reporting, she empowers the Data Center team to make informed decisions through high-impact research and market intelligence tools. In addition, she creates comprehensive reports and resources that deliver critical data and trend analyses to both internal and external stakeholders.
