

Melanie Smith

Senior Vice President

Workspace Planning, Design & Support

Professional Experience

Melanie is a corporate real estate professional specializing in facilities and property management. She currently oversees Cresa's Workspace Project Management team, bringing a strategic approach to new and ongoing projects. Melanie manages accounts requiring occupancy planning expertise and offers innovative solutions to further her clients' business objectives and enhance employee productivity. She has diverse knowledge in relocation management, facilities management and workspace programming for corporate, retail, institutional, data center and government work environments.
