

Glenn Olson

Principal, Project Management Fort Lauderdale

Professional Experience

Glenn Olson brings 30+ years of experience in the construction and real estate industries to Cresa's Fort Lauderdale and Miami Project Management division. His expansive portfolio of successful projects are attributed to his leadership skills and ability to strategically organize teams around a client's goals and objectives. Glenn has serviced technology, financial, sports, healthcare and legal clients, and has overseen projects ranging from portfolio accounts to single-branch assignments. Glenn harnesses timely and effective communication, advanced planning and risk mitigation tactics to bring projects to a soft landing.

Glenn served as president of Mancini Associates in Manhattan, now known globally as Mancini Duffy. He served as founder and president of Olson Group International, a Manhattan-based design and project management firm for 27 years. Then, he turned his attention to real estate and joined Cresa for four years as senior vice president, leading the project management division. During a two-year re-structuring period of Cresa's Fort Lauderdale and Miami offices, he joined JLL, until his return to Cresa in 2017.
