

Dan Gallup

**Principal
Los Angeles**

Professional Experience

Dan Gallup specializes in providing creative real estate solutions to meet the unique needs of his clients through lease and sale transactions. His services are designed to help clients find the right space, negotiate the most favorable lease or sale terms, and manage the design, construction and move.

Dan oversees strategic planning with his clients to consider the business challenges and drivers that are critical to implementing effective local and national real estate transactions. Clients benefit from his leadership, attention to detail, and commitment to providing responsive solutions throughout the transaction process. He places a premium on forming trusted long-term partnerships with clients. These partnerships facilitate a proactive approach to managing corporate real estate on a continuing basis, which ultimately saves clients more time and money.

"We have worked with Dan on multiple occasions to help us relocate and renew. His approach is highly strategic and we felt as though he was a real partner. It was apparent that during the entire search, evaluation, and contract signing that he had the best interest of SpectraSensors in mind."

Mike Dyar, CFO
SpectraSensors Inc.
