

Tim Pratt

Project Manager, Project Management Perth, Western Australia

Professional Experience

Tim is an accomplished project manager having led many client driven projects in his 11-year career. He prides himself on ensuring operational activity and practices are completed in a safe and timely manner in accordance with the client's standards, policies and procedures including safeguarding a profitable outcome and meeting expectations.

Tim has developed exceptional communication skills that help drive positive feedback from the client and articulate operational requirements and site information to the project team, contractors, subcontractors and suppliers. Tim draws on his technical abilities to maintain a strong leadership role throughout his projects and deliver the shared objectives.
