

James Legaspi

Senior Advisor, Project Management
Phoenix

Professional Experience

With more than 10 years of Commercial, Industrial and Residential Construction experience, James leads the project team with all efforts required to manage projects safely, on time, within budget and to the quality standards expected by the clients. He provides operational support and oversight in all phases of the project, including preconstruction, construction and closeout. James takes pride in his hands on approach to construction oversight and Value Engineering, while still ensuring quality control.
